

Assignment 2

For this assignment, you will take the changes you suggested in Assignment 1 and start to implement them. Begin to create the site, adapting or creating from scratch the previous site. The pages do not have to function, just get the forms created that you will be utilizing for the site. All forms should be there to be viewed for this assignment. This should be in a folder named lastname_assignment2 and zipped and uploaded into the dropbox in D2L. You should also upload this to the istwebclass server.
